

IABSE CONFERENCE GUIMARÃES 2019

S&P Clever Reinforcement Company sponsored the IABSE Symposium that took place in Portugal between 27th and 29th of March in the historical city of Guimarães. The International Association for Bridge and Structural Engineering (IABSE) is a scientific / technical Association comprising members in 100 countries and counting 51 National Groups worldwide. Founded in 1929 it has its seat in Zurich, Switzerland. The aim of the Association is to exchange knowledge and to advance the practice of structural engineering worldwide in the service of the profession and society.

This year's IABSE Symposium theme was 'Towards a Resilient Built Environment'. Two papers (with research using S&P products) were presented:

- "CRP strengthening and long term monitoring of old metallic roadway bridge in Melbourne" presented by E. Ghafoori
- "Behavior of RC structures strengthened with prestressed CFRP laminates; a numerical study" presented by L. Correia
